

## JERSEY-FRIENDLY YARDS CASE STUDY #5

**Seawood Harbor**  
**102 Rochester Drive**  
**Brick, NJ 08723**

### Goal:

Beautify the entrance of Seawood Harbor Property Owners Association by planting native flowers and shrubs around the highly visible Association sign. Offer a model native plant garden for residents and visitors to enjoy and replicate in their own yards. Bring a sense of renewal to our neighborhood after Hurricane Sandy.

### Site Conditions:

The Seawood Harbor project site is located in a highly visible area along Mandalay Road across from the calming circle and bike path. Backdrop to the target area is a mature healthy woodlands, part of the Edwin B. Forsythe National Wildlife Refuge. The soil in the area of planting is hard and compacted, containing macadam, pieces of old pavement and gravel. The site receives partial sun throughout the day.

Funding for this project was provided by NJDEP, 319h Grant #RP13-007.

### Actions:

This site showcases native plants selected using the Jersey Friendly Yards website, [www.jerseyyards.org](http://www.jerseyyards.org). The soil was excavated to a depth of about 3 ft. Compost was procured from the county and added as an amendment to remediate the compaction and lack of organic matter. Native shrubs were installed behind the sign and native perennials were installed in front. Native shrubs were selected to compliment the woodlands. Perennials were selected to offer a range of colors, textures and bloom times for an attractive 3-season garden.

This project was conducted in collaboration with the Barnegat Bay Partnership.

### Project Leaders:

Becky Laboy and Eileen Miller: OCSCD  
Mike Gerrity: Rutgers Environmental Steward

Adrienne Ferrie: President, Seawood Harbor Property Owners Association

### PLANT LIST

#### SHRUBS:

Groundsel Bush  
(*Baccharis halimifolia*)  
New Jersey Tea  
(*Ceanothus americanus*)  
Sweet Pepperbush  
(*Clethra alnifolia*)

#### PERENNIALS:

Blue Giant Hyssop  
(*Agastache foeniculum*)  
Eastern Blue Star  
(*Amsonia tabernaemontana*)  
Eastern Columbine  
(*Aquilegia Canadensis*)  
Butterfly Weed  
(*Asclepias tuberosa*)

Blue Wild Indigo  
(*Baptisia australis*)  
Purple Mistflower  
(*Conoclinium coelestinum*)  
Lanceleaf Tickseed  
(*Coreopsis lanceolata*)  
Purple Joe-Pye  
(*Eupatorium purpureum*)  
White Wood Aster  
(*Eurybia divaricatus*)  
Woodland Sunflower  
(*Helianthus divaricatus*)  
False Sunflower  
(*Heliopsis helianthoides*)  
Sedum  
(*Hylotelephium telephium*)  
Great Blue Lobelia  
(*Lobelia siphilitica*)  
Sundial Lupine  
(*Lupinus perennis*)
